

Institute for research and information in health economics (Irdes)
21-23 rue des Ardennes
75019 Paris, France
+33 1 53 93 43 48
gandre@irdes.fr

Areas of expertise

Mental health services and policy; Inequity in health and healthcare services utilization; Use of health claims data for research purposes and application of statistical methods to interrogate large datasets; International comparison of health systems

Professional experience

Since 2022: Senior research fellow (50%), Institute for research and information in health economics
Paris, France.

Since 2022: Public health practitioner (50%), Greater Paris University Hospitals
Paris, France.

2018–2022: Research fellow, Institute for research and information in health economics
Paris, France.

2017: Visiting researcher, Centre for mental health research, Australian national university, and Menzies center for health policy, University of Sydney
Canberra & Sydney, Australia.

2016: Visiting researcher, Mental health policy unit, Brain and mind center, University of Sydney
Sydney, Australia.

2012–2017: Research fellow, Greater Paris University Hospitals and French national institute of health and medical research
Paris, France.

2012: Intern, Department of Population Health Science and Policy, Mount Sinai Health System, and Columbia University
New York, USA.

2011: Intern, World Health Organization
Geneva, Switzerland.

2010: Intern and project manager (gap year), French association of pharmaceutical companies
Paris, France.

Education

2017: PhD in Public Health and Health Services Research, Paris VII University, *Paris, France*
— Thesis ‘Practice variations and associated factors in French public psychiatry: a study leveraging ten complementary nationwide databases’.
— Supported by grants from the French national research agency (ANR) and the Directorate for research, studies, evaluation and statistics (Drees) of the Ministries in charge of health and social affairs.

2012: International Master of Public Health, French school of public health, *Paris/Rennes, France*
— Master thesis ‘Economic impact of ventilator-associated pneumonia (VAP) and evaluation of the VAP prevention program in Mount Sinai medical center’.
— With honor.

2012: Doctor of Pharmacy (PharmD), Paris XI University, *Paris, France*
— Ranked 3rd at the entrance exam and 1st of the fifth year.
— Thesis ‘Stakes of registration on the expensive drugs list in the frame of activity-based payment’.
— With highest honor.

Funding of research projects

Funding of projects as principal investigator or co-principal investigator

- **2022-2025: Grant from the French institute for public health research (IReSP), Handicovid project**
Consequences of care restrictions during the Covid-19 pandemic on people living with a disability, coordination of the part relating to mental disability (coordinator of the full project: Dr Maude Espagnacq), collaborations with Strasbourg University and Versailles Saint Quentin University.
- **2020-2023: Grant from the French national cancer institute (INCa), Canopy project**
Cancer care of patients with severe mental disorders: some difficulties in the care pathways?, principal investigator and coordinator (collaborations with the French school of public health, Nanterre and Nantes University, GHU Paris Psychiatrie & Neurosciences).

- **2018-2019: Grant from the National association of friends and families of persons with a mental illness and/or disability (Unafam), *Colchique project***
Comorbidities and somatic care pathways of individuals treated for a mental disorder, co-principal investigator with Dr Magali Coldefy.

Funding of projects as associate investigator

- **2022-2024: Grant from the Ile-de-France interregional group for clinical research and innovation (Girci), *Mosaique project***
Collaborative care model in mental health: an evaluation of a pilot implementation in four multidisciplinary group practice in primary care, 2022-2024, principal investigator: Dr Nadia Younès.
- **2017-2020: Grant from the French institute for public health research (IReSP), *Psycoord project***
Care coordination in psychiatry: an analysis of healthcare provider patient-sharing networks, principal investigator: Dr Magali Coldefy.
