

7th IRDES-DAUPHINE Workshop on Applied Health Economics and Policy Evaluation

Paris, 17-18 June 2021

The 7th IRDES-DAUPHINE Workshop on Applied Health Economics and Policy Evaluation (AHEPE) is organized by IRDES, Institute for Research and Information in Health Economics, with Chaire Santé Dauphine.

The workshop covers a wide range of topics, covering social health inequalities, health service organisation and utilization, health insurance, long-term care... with an emphasis on Public Policy analysis and evaluation.

12 papers were selected this year by the scientific committee based on a full or advanced draft written in English. Due to the sanitary circumstances in Paris, the workshop will be held by videoconference this year, for the second time. Each paper will be presented by one of the authors and discussed by another researcher, followed by a general discussion (40 minutes in total).
